

Geoff Bolam

New Perspective

Friday 2 December to Friday 6 January

Geoff Bolam comes from a long line of artists, going back at least five generations and is distantly related to William Morris. He started drawing as soon as he could hold a pencil and early sketches often included futuristic cars, aircraft and spaceships. Following a career in Graphic Design, he started painting for pleasure in 2005 and made the transition to painting full time in 2014.

'I've always been fascinated by car design, particularly the flamboyant styling of Art Deco and post-war sports cars, so when the opportunity came to start painting seriously I was naturally drawn to the subject.'

A unique feature of Bolam's artworks is that they are painted in Oils onto Aluminium panels - various surface treatments, such as etching, polishing and wire brushing are applied to create background design elements and represent features of the car. The effect is striking - the surface treatments subtly catch the light bringing the image to life.

This exhibition features some new works which see the hero car placed in a setting such as a landscape or racetrack.

Having exhibited widely in the UK, Europe and USA, Bolam is acknowledged as 'one of the finest artists working in the genre' and his work is held in private collections worldwide.

Several of the paintings are reproduced as Limited Edition prints which are printed onto an Aluminium composite or Aluminiumised card.
