

THE LUXURY OF CARS, FURS AND BUBBLY BY RICHARD NEERGAARD

FRIDAY 30 JANUARY TO FRIDAY 27 FEBRUARY

Richard Neergaard has carved a unique niche in automotive art, blending beauty with storytelling. His striking, sculptural pieces integrate original components from race cars and classics. These parts—imbued with history, performance, and emotion—form the heart of each work, giving it authenticity and soul. He has been commissioned by half the F1 teams.

His pieces are crafted using aluminium panels, laser-cut, CNC-bent, and powder-coated. Onto these, high-resolution photographs are precisely laminated and plodder-cut to match each shape, then mounted on high-gloss acrylic. The result is a bold fusion of technology, craftsmanship, and fine art.

Richard's creativity also includes a unique approach to portraits "painted" on up-cycled fur rugs using an unusual, layered dye technique. This gives the art a depth and texture not seen on any other medium, making them a talking piece of any room

in which they are displayed.

Richard has also captured an eclectic and humorous view of iconic London culture using his most British friend "Bubbly", named for his love of Champagne. The series includes both prints of his paintings as well as bronze sculptures of the lovable character.

Richard has works in the British Motor Museum, the National Motor Museum, the Jaguar Heritage Trust museum, the Williams F1 museum and the F1 headquarters of McLaren, Haas, Mercedes, Sauber, and Williams. He is open to commissions.

Before dedicating himself full-time to art, Richard had a distinguished career in creative marketing, where he invented the globally successful Finish PowerBall dishwasher tablet with the red ball in it—an innovation used in millions of homes around the world.
